

BRETTON FUND

IMPORTANT NOTE: Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by calling or sending an email request.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by calling or sending an email request. Your election to receive reports in paper will apply to all funds held with the fund complex/your financial intermediary.

Semi-Annual Report

June 30, 2020

BRTNX

August 10, 2020

While all of us are still dealing with shutdowns and rising COVID-19 case counts, the market has already moved on, shrugging off concerns about the worst recession in modern history and roaring back within striking distance of its all-time highs.

We don't have a strong opinion on whether the overall market is "correct" in this assessment, though we were surprised at how fast the market appeared to reach its level of optimism. Our overall economic assessment last quarter was that the short-term will be quite awful (massive unemployment, large reductions in spending and income), but once a vaccine becomes widely distributed, the economy should recover significantly. There will be some permanent changes, many being accelerated changes that were already happening: companies will be more flexible about people working from home; consumers will buy more groceries online; sales teams will video conference more and fly less; firms will outsource more of their computing (to the benefit of our Google and Microsoft investments).

This continues to be our assessment, with some caveats. The federal stimulus the CARES Act made a huge difference; even though unemployment soared and consumer spending fell, household incomes actually increased thanks to the unprecedented inflow of government aid. The Federal Reserve may have had an even larger impact on the fortunes of the largest companies, easing credit markets to the point where companies were able to raise enough cash to bridge them to an eventual recovery.

Tragically, these government successes were not matched in the field of virus management. We now know from the rest of the world that a program of universal mask-wearing, social distancing, and the avoidance of prolonged periods indoors can dramatically reduce the virus's reproduction factor. Most developed countries have been able to reduce cases and manage some version of a reopening, but, unfortunately, our experience has been far worse.

This leaves us navigating a strange interim period. For now, economic activity seems to hinge on case counts, plus the generosity of Congress and the Fed. If federal stimulus keeps flowing and people take distancing measures seriously, we could have a reasonably functional economy by late fall. If not, the economy will remain abysmal.

How long this interim period will be—and how long it will take to recover—hinges on one thing that's almost impossible to predict: how soon we get an effective vaccine. Given the virus's rudimentary structure and how slowly it mutates, there will be a vaccine, although early versions might not be all that reliable or long-lasting, more akin to a seasonal, mostly effective flu shot than a foolproof measles vaccine that lasts a lifetime. The problem is that vaccines are difficult to test. Vaccines are administered to the healthy, and only a small percentage of healthy people will develop the condition. Several candidate vaccines are due to begin Phase 3 testing at the end of this month, but our sense is that the soonest a vaccine becomes widely disseminated is the first half of next year—and that's if we get lucky. Our guess is in a downside scenario, it could be closer to two years based on more traditional vaccine development methods. Until then, our economy will run below capacity—far below in the absence of any effective treatments, moderately below if there are treatments but no vaccine.

We're not basing our investment strategy on a fast or long recovery since we don't know the answer. We own businesses we expect to increase earnings and generate cash flow in either scenario.

Total Returns as of June 30, 2020^(A)

	<u>2nd Quarter</u>	<u>First Half 2020</u>	<u>1 Year</u>	<u>Annualized 3 Years</u>	<u>Annualized 5 Years</u>	<u>Annualized Since Inception</u>
Bretton Fund	14.91%	-10.66%	0.53%	11.52%	7.61%	10.58%
S&P 500® Index ^(B)	20.54%	-3.08%	7.51%	10.73%	10.73%	13.12%

^(A) All returns include change in share prices and, in each case, include reinvestment of any dividends and capital gain distributions. The inception date of the Bretton Fund was September 30, 2010.

^(B) The S&P 500® Index is a broad-based stock market index based on the market capitalizations of 500 leading companies publicly traded in the US stock market, as determined by Standard & Poor's, and captures approximately 80% coverage of available market capitalization.

Performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. You may obtain performance data current to the most recent month-end at <http://brettonfund.com> or by calling 800.231.2901.

All returns include change in share prices, reinvestment of any dividends, and capital gains distributions. The index shown is a broad-based, unmanaged index commonly used to measure performance of US stocks. The index does not incur expenses and is not available for investment. The fund's expense ratio is 1.35%. The fund's principal underwriter is Rafferty Capital Markets, LLC.

Contributors to Performance

In the second quarter, investors drifted toward companies they deemed least impacted by—and even benefited from—the coronavirus: big tech. Google/Alphabet was the biggest contributor to our performance, adding 1.8% to the fund, followed by Microsoft with 1.4%. Mastercard added 1.3%.

The two laggards in the quarter were Ross Stores and Berkshire Hathaway, which each took off 0.1% from the fund.

We have underperformed so far this year, mostly due to our exposure to two sectors hit hard by the pandemic: retail and banking. We've reduced our exposure to banking a bit by eliminating our Wells Fargo position. (We discuss Wells specifically below.) Our remaining bank holdings in Bank of America and JPMorgan were hurt by the Fed reducing interest rates. They were also helped by government actions that ensure end users of capital are able to honor their obligations. We are cautiously optimistic that these benefits will support earnings over time.

We expect retailers like Ross and TJX to recover just fine, and based on recent anecdotal data (long lines outside T.J. Maxx stores), we think that recovery is already under way.

Wells Fargo

We sold our entire Wells Fargo position, which we've owned since 2011, toward the beginning of the quarter. This wasn't an easy decision. On one hand, we believe the shares continue to be undervalued, and we are hesitant to sell into a market panic. We also think the company will bring its costs in line with its competitors over the next few years. But we also feel the business is facing serious challenges. Pre-COVID, Wells wasn't growing nearly as fast as its competitors JPMorgan and Bank of America. It also hasn't been able to move past its regulatory issues as fast as we'd hoped, and we're not optimistic that it will speed up in the COVID era. Given we like Bank of America and JPMorgan better and already own them, we decided to sell our Wells stake. Our total loss was -7.9%, or -1.8% on an annualized basis. Our opportunity cost, unfortunately, was greater.

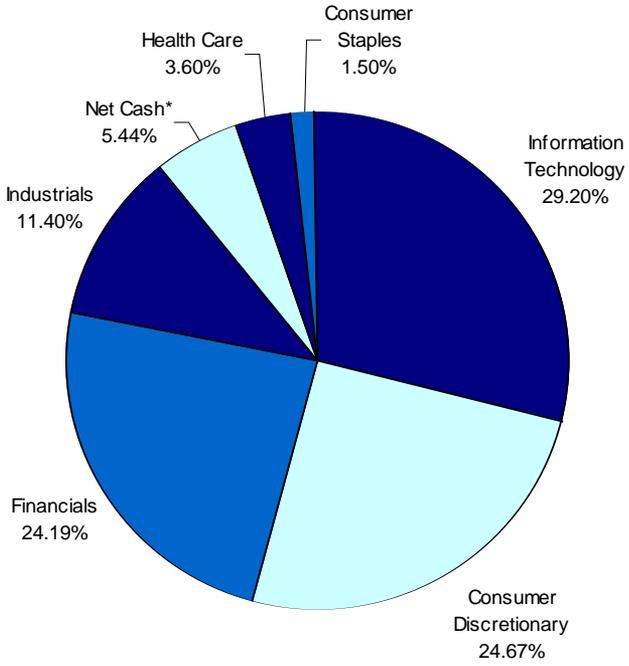

We're in truly unprecedented times, but through all of this, we have confidence people will keep Googling things, using their Mastercards/Visas/Amexes, driving their cars, and buying new houses.

As always, thank you for investing.

Notes to Financial Statements

Bretton Fund

June 30, 2020
(Unaudited)

1.) ORGANIZATION

Bretton Fund (the "Fund") was organized as a non-diversified series of the PFS Funds (the "Trust") on September 21, 2010. The Trust was established under the laws of Massachusetts by an Agreement and Declaration of Trust dated January 13, 2000, which was amended and restated January 20, 2011. The Trust is registered as an open-end investment company under the Investment Company Act of 1940, as amended. The Trust may offer an unlimited number of shares of beneficial interest in a number of separate series, each series representing a distinct fund with its own investment objectives and policies. As of June 30, 2020, there were nine series authorized by the Trust. The Fund commenced operations on September 30, 2010. The Fund's investment objective is to seek long-term capital appreciation. The investment adviser to the Fund is Bretton Capital Management, LLC (the "Adviser").

2.) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services - Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the significant accounting policies described in this section.

SECURITY VALUATION:

All investments in securities are recorded at their estimated fair value, as described in Note 3.

SHARE VALUATION:

The net asset value (the "NAV") is generally calculated as of the close of trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share are equal to the net asset value per share.

FEDERAL INCOME TAXES:

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years. The Fund identifies its major tax jurisdictions as U.S. Federal tax authorities; however, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six month period ended June 30, 2020, the Fund did not incur any interest or penalties.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date.

The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are

Notes to Financial Statements (Unaudited) - continued

reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations, or net asset value per share of the Fund.

USE OF ESTIMATES:

The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

EXPENSES:

Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund's relative net assets or another appropriate basis.

CASH:

The Fund maintains cash at its custodian which, at times, may exceed United States federally insured limits.

OTHER:

The Fund records security transactions based on the trade date. Dividend income is recognized on the ex-dividend date. Interest income, if any, is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on sales of investment securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

3.) SECURITIES VALUATIONS

As described in Note 2, the Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FAIR VALUE MEASUREMENTS

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stocks). Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Adviser believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued

Notes to Financial Statements (Unaudited) - continued

by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at the last sale price, the security is categorized as a level 1 security, and if an equity security is valued by the pricing service at its last bid, it is generally categorized as a level 2 security. When market quotations are not readily available, when the Adviser determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value, or when restricted securities are being valued, such securities are valued as determined in good faith by the Adviser, subject to review of the Board of Trustees (the "Trustees" or the "Board") and are categorized in level 2 or level 3, when appropriate.

In accordance with the Trust's good faith pricing guidelines, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. There is no single standard for determining fair value controls, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Adviser would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of June 30, 2020:

<u>Valuation Inputs of Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	<u>\$37,194,005</u>	<u>\$0</u>	<u>\$0</u>	<u>\$37,194,005</u>
Total Investments in Securities	<u>\$37,194,005</u>	<u>\$0</u>	<u>\$0</u>	<u>\$37,194,005</u>

The Fund did not hold any Level 3 assets during the six month period ended June 30, 2020.

The Fund did not invest in derivative instruments during the six month period ended June 30, 2020.

4.) INVESTMENT ADVISORY AGREEMENT AND RELATED PARTY TRANSACTIONS

The Fund has entered into an investment advisory agreement ("Management Agreement") with the Adviser. The Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Board of Trustees, and, at its own expense and without reimbursement from the Fund, furnishes office space and all necessary office facilities, equipment, and executive personnel necessary for managing the Fund. The Adviser pays the expenses of the Fund except for the management fee, all brokerage fees and commissions, taxes, borrowing costs (such as (a) interest and (b) dividend expenses on securities sold short), fees and expenses of acquired funds, extraordinary or non-recurring expenses as may arise, including litigation to which the Fund may be a party and indemnification of the Trust's Trustees and officers with respect thereto. For its services, effective January 1, 2020, the Adviser receives a management fee equal to 1.35% of the average daily net assets of the Fund. Prior to January 1, 2020 the Adviser received a management fee equal to 1.50% of the average daily net assets of the Fund.

For the six month period ended June 30, 2020, the Adviser earned management fees totaling \$262,175, of which \$44,335 was due to the Adviser at June 30, 2020.

5.) RELATED PARTY TRANSACTIONS

Mr. Jeffrey R. Provence of Premier Fund Solutions, Inc. (the "Administrator") also serves as trustee/officer of the Fund. This individual receives benefits from the Administrator resulting from administration fees paid to the Administrator of the Fund by the Adviser.

The Trustees who are not interested persons of the Trust each received \$750, for a total of \$2,250, in Trustees' fees plus travel and related expenses related to the Bretton Fund for the six month period ended June 30, 2020. Under the Management Agreement, the Adviser pays these fees.

6.) PURCHASES AND SALES OF SECURITIES

For the six month period ended June 30, 2020, purchases and sales of investment securities other than U.S. Government obligations and short-term investments aggregated \$3,391,853 and

Notes to Financial Statements (Unaudited) - continued

\$3,506,591, respectively. Purchases and sales of U.S. Government obligations aggregated \$0 and \$0, respectively.

7.) CONTROL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting shares of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of June 30, 2020, YDB LLC, beneficially held, in aggregate, approximately 30.89% of the Fund and Thao Dodson, held, in aggregate, approximately 36.95% of the Fund and therefore, each may be deemed to control the Fund.

8.) TAX MATTERS

For Federal income tax purposes, the cost of investments owned at June 30, 2020, was \$23,635,578. At June 30, 2020, the composition of unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) was as follows:

<u>Appreciation</u>	<u>(Depreciation)</u>	<u>Net Appreciation (Depreciation)</u>
\$14,057,791	(\$499,364)	\$13,558,427

The tax character of distributions was as follows:

	Six Month Period <u>Ended June 30, 2020</u>	Calendar Year <u>Ended 2019</u>
Ordinary Income	\$ -0-	\$ -0-
Long-Term Capital Gain	<u>-0-</u>	<u>-0-</u>
	\$ -0-	\$ -0-

9.) CONCENTRATION OF SECTOR RISK

If the Fund has significant investments in the securities of issuers in industries within a particular sector, any development affecting that sector will have a greater impact on the value of the net assets of the Fund than would be the case if the Fund did not have significant investments in that sector. In addition, this may increase the risk of loss of an investment in the Fund and increase the volatility of the Fund's NAV per share. From time to time, circumstances may affect a particular sector and the companies within such sector. For instance, economic or market factors, regulation or deregulation, and technological or other developments may negatively impact all companies in a particular sector and therefore the value of a Fund's portfolio will be adversely affected. As of June 30, 2020, the Fund had 29.20% of the value of its net assets invested in stocks within the Information Technology sector.

10.) COVID-19 RISKS

Unexpected local, regional or global events, such as war; acts of terrorism; financial, political or social disruptions; natural, environmental or man-made disasters; the spread of infectious illnesses or other public health issues; and recessions and depressions could have a significant impact on the Fund and its investments and may impair market liquidity. Such events can cause investor fear, which can adversely affect the economies of nations, regions and the market in general, in ways that cannot necessarily be foreseen. An outbreak of infectious respiratory illness known as COVID-19, which is caused by a novel coronavirus (SARS-CoV-2), was first detected in China in December 2019 and subsequently spread globally. This coronavirus has resulted in, among other things, travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, significant disruptions to business operations, market closures, cancellations and restrictions, supply chain disruptions, lower consumer demand, and significant volatility and declines in global financial markets, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected, and other infectious illness outbreaks that may arise in the future could adversely affect, the economies of many nations and the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

11.) SUBSEQUENT EVENTS

Subsequent events after the date of the Statement of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has concluded that there is no impact requiring adjustment to or disclosure in the financial statements.

Additional Information

June 30, 2020

(Unaudited)

1.) AVAILABILITY OF QUARTERLY SCHEDULE OF INVESTMENTS

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-PORT. The Fund's Form N-PORT is available on the SEC's website at <http://www.sec.gov>.

2.) PROXY VOTING GUIDELINES

Bretton Capital Management, LLC, the Fund's investment adviser ("Adviser"), is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.brettonfund.com. It is also included in the Fund's Statement of Additional Information, which is available on the SEC's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies, Form N-PX, relating to portfolio securities during the most recent 12-month period ended June 30, is available without charge, upon request, by calling our toll free number (800.231.2901). This information is also available on the SEC's website at <http://www.sec.gov>.

3.) DISCLOSURE OF EXPENSES

As a shareholder of the Fund, you incur ongoing expenses consisting solely of management fees. You will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Mutual Shareholder Services, LLC, the Fund's transfer agent, and IRA accounts will be charged an \$8.00 annual maintenance fee. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested in the Fund on January 1, 2020, and held through June 30, 2020.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as the charges assessed by Mutual Shareholder Services, LLC as described above. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative cost of owning different funds. In addition, if these transactional costs were included, your cost could have been higher.

	Beginning Account Value January 1, 2020	Ending Account Value June 30, 2020	Expenses Paid During the Period* January 1, 2020 to June 30, 2020
Actual	\$1,000.00	\$893.43	\$6.36
Hypothetical (5% annual return before expenses)	\$1,000.00	\$1,018.15	\$6.77

* Expenses are equal to the Fund's annualized expense ratio of 1.35%, multiplied by the average account value over the period, multiplied by 182/366 (to reflect the one-half year period ended June 30, 2020).

Additional Information (Unaudited) - continued

4.) APPROVAL OF CONTINUATION OF INVESTMENT ADVISORY AGREEMENT BETWEEN THE TRUST AND BRETTON CAPITAL MANAGEMENT, LLC ON BEHALF OF THE BRETTON FUND

At a meeting held on March 3, 2020 (the "Meeting"), the Board of Trustees (the "Board" and the "Trustees") considered the renewal of the Management Agreement (the "Management Agreement") between the Trust and Bretton Capital Management, LLC ("Bretton") on behalf of the Bretton Fund. In approving the continuation of the Management Agreement, the Board of Trustees considered and evaluated the following factors: (i) the nature, extent and quality of the services provided by Bretton to the Bretton Fund; (ii) the investment performance of the Bretton Fund; (iii) the cost of the services to be provided and the profits to be realized by Bretton from the relationship with the Bretton Fund; (iv) the extent to which economies of scale will be realized as the Bretton Fund grows and whether the fee levels reflect these economies of scale to the benefit of shareholders; and (v) Bretton's practices regarding possible conflicts of interest.

In assessing these factors and reaching its decisions, the Board took into consideration information furnished for the Board's review and consideration throughout the year at its regular Board meetings, as well as information specifically prepared and/or presented in connection with the annual renewal process. The Board also considered the presentation made by a representative of Bretton at the Meeting. The Board requested and was provided with information and reports relevant to the annual renewal of the Management Agreement, as well as information relevant to their consideration of the Management Agreement including: (i) information regarding the services and support provided to the Bretton Fund and its shareholders by Bretton; (ii) assessments of the investment performance of the Bretton Fund by the principals of Bretton; (iii) commentary on the reasons for the performance; (iv) presentations addressing Bretton's investment philosophy, investment strategy, personnel and operations; (v) compliance and audit related information concerning the Bretton Fund and Bretton; (vi) disclosure information contained in the registration statement of the Trust and the Form ADV of Bretton; and (vii) a memorandum from legal counsel that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving the Management Agreement, including the material factors set forth above and the types of information included in each factor that should be considered by the Board in order to make an informed decision. The Board also requested and received various informational materials including, without limitation: (i) documents containing information about Bretton, including financial information, a description of personnel and the services provided to the Bretton Fund, information on investment advice, performance, summaries of Bretton Fund expenses, compliance program, current legal matters, and other general information; (ii) comparative expense and performance information for other mutual funds with strategies similar to the Bretton Fund; (iii) the anticipated effect of size on the Bretton Fund's performance and expenses; and (iv) benefits to be realized by Bretton from its relationship with the Bretton Fund. The Board did not identify any particular information that was most relevant to its consideration to approve the Management Agreement and each Trustee may have afforded different weight to the various factors.

1. Nature, Extent and Quality of the Services Provided by Bretton

In considering the nature, extent, and quality of the services provided by Bretton, the Trustees reviewed the responsibilities of Bretton under the Management Agreement. The Trustees reviewed the services being provided by Bretton including, without limitation: the quality of investment advisory services (including research and recommendations with respect to portfolio securities); the process for formulating investment recommendations and assuring compliance with the Bretton Fund's investment objective, strategies, and limitations, as well as for ensuring compliance with regulatory requirements. The Trustees considered the coordination of services for the Bretton Fund among Bretton and the service providers and the Independent Trustees; and the efforts of Bretton to promote the Bretton Fund and grow its assets. The Trustees noted the quality of Bretton's principals and their commitment to the Bretton Fund and the continued cooperation with the Independent Trustees and legal counsel for the Bretton Fund. The Trustees evaluated Bretton's principals, including their education and experience. After reviewing the foregoing information and further information in the materials provided by Bretton, the Board concluded that, in light of all the facts and circumstances, the nature, extent, and quality of the services provided by Bretton were satisfactory and adequate for the Bretton Fund.

2. Investment Performance of the Bretton Fund and Bretton

In considering the investment performance of the Bretton Fund and Bretton, the Trustees compared the short-term and since inception performance of the Bretton Fund with the performance of funds with similar objectives managed by other investment advisers, as well as with aggregated peer group data. As to the performance of the Bretton Fund, the Trustees compared the Bretton Fund's performance to its Morningstar's category, the U.S. Fund Large Blend category (the "Category") and to a group of funds of similar size, style and objective, derived from the Category (the "Peer Group"). The performance data from the Category and the Peer Group covered periods ended December 31, 2019. The Trustees noted that for the 1-, 3- and 5- year periods ended December 31, 2019, the Bretton Fund outperformed the average

Additional Information (Unaudited) - continued

fund in its Category and Peer Group. They compared the Bretton Fund's performance to its benchmark index, the S&P 500 Index, for the 1-, 3- and 5- year periods ended December 31, 2019, noting that the Fund outperformed the benchmark for the 1- and 3- year periods, but trailed the benchmark for the 5-year period. The Trustees reflected on the management style utilized for the Bretton Fund, noting that Bretton's long-term investment strategy has performed well since the Fund's inception. They discussed Bretton Fund's cash and cash equivalent balances and the impact this has on performance especially during periods of extreme market volatility. The Trustees considered Bretton's decision last year to tweak the investment strategy it uses to manage the Bretton Fund, noting that the Bretton Fund has outperformed the Category, Peer Group and S&P 500 Index since that time. After reviewing and discussing the investment performance of the Bretton Fund further, Bretton's experience managing the Bretton Fund, and other relevant factors, the Board concluded, in light of all the facts and circumstances, that the investment performance of the Bretton Fund and Bretton was satisfactory.

3. Costs of the Services to be provided and profits to be realized by Bretton

In considering the costs of the services to be provided and profits to be realized by Bretton from the relationship with the Bretton Fund, the Trustees considered: (1) Bretton's financial condition and the level of commitment to the Bretton Fund and Bretton by the principals of Bretton; (2) the asset level of the Bretton Fund; (3) the overall expenses of the Bretton Fund; and (4) the nature and frequency of advisory fee payments. The Trustees reviewed information provided by Bretton regarding its profits associated with managing the Bretton Fund. The Trustees also considered potential benefits for Bretton in managing the Bretton Fund. The Trustees then compared the fees and expenses of the Bretton Fund (including the management fee) to other comparable mutual funds. The Trustees reviewed the fees under the Management Agreement and compared them to the average management fee of the Category and Peer Group, noting that the Bretton Fund's management fee was higher than the average management fee for the Category and Peer Group. They performed the same comparison as it relates to the Bretton Fund's expense ratio, noting that the Fund's expense ratio was higher than the average net expense ratio for the Category and Peer Group. The Trustees also recognized that Bretton was obligated to pay certain operating expenses of the Bretton Fund out of its management fee, and that after paying those expenses, Bretton's relationship with the Bretton Fund was modestly profitable. They also considered Bretton's decision to lower its management fee from 1.50% per annum to 1.35% per annum. Based on the foregoing, the Board concluded that the fees to be paid to Bretton and the profits to be realized by Bretton, considering all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Bretton.

4. Economies of Scale

The Trustees next considered the impact of economies of scale on the Bretton Fund's size and whether management fee levels reflect those economies of scale for the benefit of the Bretton Fund's investors. The Trustees considered that while the management fee remained the same at all asset levels, the Bretton Fund's shareholders had experienced benefits from the fact that Bretton was obligated to pay certain of the Bretton Fund's operating expenses which had the effect of limiting the overall fees paid by the Bretton Fund. In light of its ongoing consideration of the Bretton Fund's asset levels, expectations for growth in the Fund, Bretton's commitment to consider adding fee breakpoints as the Fund grows, and fee levels, the Board determined that the Bretton Fund's fee arrangements, in light of all the facts and circumstances, were fair and reasonable in relation to the nature and quality of the services provided by Bretton.

5. Possible conflicts of interest and benefits to Bretton

In considering Bretton's practices regarding conflicts of interest, the Trustees evaluated the potential for conflicts of interest and considered such matters as the experience and ability of the principals of Bretton; the basis of decisions to buy or sell securities for the Bretton Fund; and the substance and administration of Bretton's code of ethics. The Trustees also considered disclosure in the registration statement of the Trust related to Bretton's potential conflicts of interest. The Board noted that Bretton does not use "soft dollars," has no affiliated companies and does not manage any other accounts for clients. The Trustees noted and accepted Bretton's representation that it does not realize any benefits from advising the Bretton Fund other than the direct benefit of being compensated by the Bretton Fund for serving as its investment adviser. Based on the foregoing, the Board determined that Bretton's standards and practices relating to the identification and mitigation of possible conflicts of interest were satisfactory.

The Independent Trustees met in executive session with Counsel to discuss the continuation of the Management Agreement.

After further review and discussion, it was the Board's determination that the best interests of the Bretton Fund's shareholders were served by the renewal of the Management Agreement.
